Beef cattle - solid & highly competitive

The German beef cattle breeding satisfies the needs of both the intensive races rich in meat as well as the exotic demands. You receive all that from Haller – carefully selected, healthy and productive animals.

In the past decades German breeders developed themselves a special competence. Due to the geographic situation of Germany in the heart of Europe, German beef cattle breeding imported over and over again high-quality genetics from the origin regions of beef races to improve it in view of the special needs of the largely dimensioned feeding and breeding farms of Eastern Europe. Due to this background it is logical that the German cattle breeding could set up a first place position in all inquiries regarding dairy and beef cattle. You profit also from this competence.

Essential performance parameters of the beef cattle are in the German breeding management continuously recorded and documented. The proved quality of breeding and fattening animals is appreciated by customers all over the world. The same applies to the documentation of the veterinarian-juridical statutes. We cannot emphasize this enough: in the cattle business it is essential to predict the numbers.

Therefore Haller: We offer you security by the preparation and the start of your dairy and beef cattle herds from the start.

Our tradition-respecting enterprise is known as a competent supplier of services all around cattle trade both in national and international measures.

Whether selection of the animals on site, winding up all default administrative regulations or after sales support: **Haller is your partner for the breeding cattle purchase.**

Of course we consult and help also with all questions all around the financing. Call us!

Haller – with us your animals arrive safe to the stable.
